

PLCS PE MAINS RENEWAL

PLCS 2"-6" Coil Pipe Trailer

Special Price: Please call, free delivery. In stock.

PLCS trailers are only as long as a pick-up truck (less than 17' x 8').

They are invaluable in tight city streets yet can also lay high volumes of pipe, at high speed, across the country.

The coil bay can handle MDPE and HDPE coils up to 54" wide x 128" OD x minimum 42" ID.

The twin axle trailer comes complete with all attachments for use with 2" to 6" PE pipe. Includes proprietary Pipe Straightener and Re-rounder System for all pipe sizes.

1/2"-1" Mini PE Pipe Reeler

Easily store, transport, and dispense small diameter PE pipe coils.

- Eliminate messy coils and reduce pipe waste!
- Keep workers organized
- Works with 1/2", 3/4" and 1" PE coils
- Maximum coil size: 48" O.D. x 15" Wide

Breakaway Connectors for PE Gas Pipe

Prevent pipe overload when directional drilling, plowing or winching. Homemade weak links are only a guess!

The connectors are a three-part product, held together by a group of pins. The pins are designed to break in tension at a specific load. *Breakaway Kits available for 1/2"-2" Services and 2"-12" Mains.*
